Related Skills

1. Management and Leadership
   I have had an opportunity to work for several organizations in a leadership role. I started my career with each employer in an entry level position and was quickly recognized for my leadership, dedication to performance, and ability to motivate those around me. I thrive on teaching others new skills and preparing them for the next level of success. I have been fortunate enough to attend various leadership workshops and seminars, learning different leadership styles, new approaches to staff development and management concepts. This expansive training over the course of my 15 years in business allows me to use various approaches in adapting my leadership style to those I am serving.

2. Fiscal Conservatism
   I practice fiscal conservatism both professionally and personally. As a manager overseeing the operations of my branch, I implemented an energy conservation challenge to our employees, significantly reducing our energy costs over the course of the year. I truly enjoy the annual budget process, and I keep a close eye on line items within the branch budget. I am constantly looking for ways to reduce expenses, and I research creative ways to generate additional income. Founding a non-profit was an important vision of mine, and in our first year we successfully managed our budget to deliver substantial scholarships to our participants. Personally, my husband and I work diligently to save and invest while providing our children opportunities to pursue educational goals and athletic opportunities.
3. **Strong interpersonal skills**
   I recently read an article that defined the top ten qualities needed to have strong interpersonal skills: verbal and non-verbal communication, listening, questioning, manners, problem solving, social awareness, self-management, responsibility and accountability, and assertiveness. I use each of these interpersonal skills daily to interact with staff, clients, executives, family members, business leaders, peers, and my children. I am always working to improve these skills, and I solicit feedback from others to help me strengthen them. I do my best to set an example for those around me when it comes to communication. One of the areas I believe I best use this skill set is when delivering less-than-ideal news to a customer or employee. If we can both depart that interaction feeling heard, understood and respected, then I have successfully delivered the information. It is not uncommon for a customer or employee to thank me afterwards for the way I handled this type of interaction, and that gives me great satisfaction. I am not confrontational by nature, but I always embrace the challenge of delivering difficult news, confident that my positive attitude, empathy and interpersonal skills will provide the needed ingredients for a successful outcome.

### Selected Accomplishments

1. Founding my own 501(c)3, Pageant Wyse, and organizing the first Miss Oak Harbor Scholarship Pageant
2. Ragnar Relay 2015; as an avid runner, this was the most grueling race I have ever participated in—200ish miles with 12 individuals, some of them strangers, over two days
3. Raising three amazing boys while continuing a successful professional career and critical involvement in my community
4. Graduating top three in my naval class
5. Taking to heart life’s lessons and using that knowledge to become the person I am today

### Supplemental Questions

Please respond to the following questions regarding your interest in the position of Council Member for the City of Oak Harbor on the following spaces provided:

1. **Why are you interested in serving as an Oak Harbor City Council Member?**
   Two years ago, I had an opportunity to work in the City of Oak Harbor’s finance department, where I learned a great deal about the management, organization, and fiscal policies related to our city. As planning commissioner, I have truly enjoyed learning more about the process and structure of each advisory board and the decisions they have input on. I enjoy working with my fellow planning commissioners to discuss agenda items and work toward a common goal. I find great value in continuing my work with the City, and a seat on City Council feels like a natural progression to me: from city employee to planning...
commissioner to council member. City Council makes significant decisions that impact the community my children live in, and I want to be a part of that process. While I appreciate the opportunity to serve as planning commissioner and am happy to continue in that role if not appointed, I have a sincere desire to be more involved. I believe that my interests, business acumen and personal qualities are well-matched for the job.

2. What strength would you bring to the Council?
I feel the greatest strengths I have to offer are a broad perspective, a consistent and realistic approach to difficult business decisions, and a servant-leadership character. As a business leader, military spouse, veteran and mother, my interests and hopes for the community are wide-ranging. I value all and identify with many different segments of our community, which would allow me to share additional insight and to consider the impact of decisions and the benefit to each unique demographic. When it comes to business principals, the values that guide my ability to make sound decisions include considering benefits for the greater good and using an approach that is firm, fair and consistent. Servant leadership is one my most important philosophies. I learned the value of servant leadership as a young sailor, and this approach to teamwork has served me my entire business career. I believe my consistent exhibition of servant leadership would be valuable, as council members have an opportunity to serve and represent our community simultaneously.

3. What are the three highest priorities and/or issues you believe the City needs to address? How would you propose to address these issues?
We know that there will be an increase to our population over the next three years with new squadrons and their families arriving to NAS Whidbey. In order to prepare for that growth, we need to continue to evaluate housing, schools, resources, traffic, service facilities and economic opportunities to meet the demands of our ever-increasing population. When it comes to evaluating key areas, healthy partnerships are critical with the Navy, Island County, the school district and area hospitals. I believe it is important to educate and look at incentives for resource conservation including water and land conservation. To be proactive in the education of the community will help us stay ahead of any unexpected depletions in these resources. Population growth and economic development, which I feel is another priority, go hand in hand. We will need to foster jobs for the families relocating here, so that we can support our own infrastructure. I am aware many of these discussions are already occurring, and while I don’t have a solution to present at this moment, it is a topic I follow closely and continue to become more educated about.

As I mentioned above, I believe the second priority is economic development. I believe the hiring of a dedicated Economic Development Officer is a step towards progress. As this is an area of focus in my current field of work, I look forward to the opportunity to review the strategic plan that is in place and to understand how we, as a city, approach business development and attract new businesses to the area. I am interested in finding progressive business opportunities and in hearing from property owners with vacant buildings to better understand the challenges they have in finding occupants. The same successful partnerships will be required to address this issue as is with our population growth. I believe it is important for Oak Harbor—the largest city on Whidbey Island serving the most diverse population—to become the destination for new businesses that attract the entire population of Whidbey Island for dining, shopping, and recreation.

I believe a priority should always include keeping the public and their interests at heart. It is
so valuable to me as a Planning Commissioner when the public comes to take advantage of the public comment period. Engaging the public, keeping them informed and maintaining transparency are all very important. One of the ways we can continue to improve in this area is by constantly looking for ways to connect to all generations within our community, such as conveying important information in a variety of ways: in person, through the mail, over the phone, electronically and through a range of medias (social and print). The Clean Water Facility updates are a great example of this type of outreach. Our newest voters are connecting with audiences in a much different way, making it imperative to utilize and consider technology that will make it easier for them to get information and provide feedback, while sparking their interest in the activities of the community.

4. Explain your current and past community involvement and/or service on City, non-profit, or public boards, committees, task forces, or commissions and how this has contributed to the Oak Harbor community. Address its relevance to the position of Oak Harbor City Council Member.

Downtown Merchant Association—Executive Board; Secretary

I am passionate about community involvement. To me, involvement in one’s community can be completed either by service within various organizations, participation in existing community events or activities, or by creating something that will serve the community. Through each of these roles, I am fulfilling my calling to serve, participate and create something for the greater good of my community. I have been asked to serve within some of these groups, and other opportunities I have sought out myself. Each of these activities has provided me with important experiences that have allowed me to hone the skills that make me the perfect candidate for Council, and as I continue to work with these groups, they provide an opportunity to interact with a variety of demographics. Additionally, my work with each group has helped me understand the value of transparency and due diligence; I see the value in processes, policies, and procedures that govern organizations. Finally, I truly enjoy the structure and the formality that government operates within, and I am excited about the prospect of joining the institution of city government as a council member.

5. What do you wish to accomplish during this appointed term as an Oak Harbor City Council Member?

During this appointed term, my greatest accomplishment would be to learn and contribute. I look forward to learning more about the issues facing our city and positively contributing to the decisions that address the needs and desires of our community. I also look forward to better understanding how I can best represent my specific demographic.

6. What is your vision for our City and community?

In order to share my vision with you, I would like to share first how I came to Oak Harbor. When I graduated A school as a Yeoman for the Navy, I was top three in my class and had the opportunity to pick orders anywhere in the world. I felt as though I would best serve my country by opting out of that choice and going "needs of the Navy." My detailer chose my
orders based on billets that were in demand, and I was stationed to beautiful NAS Whidbey. It is here that I met and married my husband, it is here that I began my career, it is here that we choose to raise our family; Oak Harbor is home. My vision for Oak Harbor is for this city to always be the best place to raise a family and to retire. I want Oak Harbor to always be a place my children find engaging and a city in which they choose to work and where they want to raise their own families. I want my aging family members to experience an unmatched quality of life. My vision for the city is much like the updated vision created by Planning Commission this year, with an emphasis on the way my children will perceive Oak Harbor over the next 20 years—in the hopes that my grandchildren will be easily accessible.

7. Do you participate in or are involved in any contract(s) with the City of Oak Harbor? Please explain your involvement.
   N/A

8. Do you hold any other elected public office? If yes, please describe the offices held.
   N/A

9. Is there anything else that you may wish to add that would help us get to know you a little better?
   I have had a wonderful and successful life to date, but I am a work in progress and am always looking for the next profound accomplishment. I did graduate with an AA six months after having my first child; now I look forward to pursuing a four-year degree. I have maintained my passion for running throughout my life and have completed three half marathons; now I look forward to completing my first full marathon. I have been married for ten years and am a devoted wife and mother; I look forward to a long marriage and to raising successful, healthy, respectful young men who will use their talents for the betterment of a cause they find worthy. At just 17 years old, I chose to serve my country and join the Navy. I value that experience and have applied what I learned there in my civilian life. I have been on many boards and have volunteered hundreds of hours serving my community in many capacities. I have spent 14 years honing my skills as a manager and am very good at understanding those I work with and expressing my opinion in a clear, non-threatening way. With all my past experience as well as my desire to continue to challenge myself, I am well prepared to sit on the Oak Harbor City Council and to pour myself into that job. I would love the opportunity to do so.

Please respond to the following questions regarding your interest in the position of Council Member for the City of Oak Harbor on the following spaces provided:

1. Why are you interested in serving as an Oak Harbor City Council Member?

   Since moving here I have fallen in love with Oak Harbor. I want to make it my forever home. Serving on the City Council would be my way of giving back. I have a diverse set of skills that will benefit the city as a whole. I love meetings and proper process. I have a passion for building a better now and being the change I wish to see in the world.

2. What strength would you bring to the Council?

   I have expert level technical and procedural skills. Law is a hobby of mine (my grandmother was a paralegal for a local law firm). I have been involved with many non-profits that interact with governmental agencies. I have the drive and compassion for the work.

3. What are the three highest priorities and/or issues you believe the City needs to address? How would you propose to address these issues?

   1. Like most cities Oak Harbor needs to transform into the new century. There are many new and unknown obstacles waiting. An example would be ‘net neutrality’. Laws regarding net neutrality can be impossible to implement and very confusing. I would like to look into revenue generating, city wide WiFi similar to the program in New York City.
   2. I have been very impressed with the City’s Emergency Response Services. I want to maintain our current levels of preparedness and add city wide drills similar to what I participated in while in Boy Scouts.
   3. Children are our future. I have seen what drugs and boredom can do. I will encourage programs that engage our children especially those that instill Civic Pride.

4. Explain your current and past community involvement and/or service on City, non-profit, or public boards, committees, task forces, or commissions and how this has contributed to the Oak Harbor community. Address its relevance to the position of Oak Harbor City Council Member.

   I attended so many city council meetings while in Boy Scouts that I was counted during roll call. I was a director of a low income housing complex that was funded by the department of agriculture which required navigating their bureaucracy as well as grant
I was an active Boy Scout throughout my teenage years. I have volunteered for many charities and non-profits. I facilitated the expansion of Internet into rural areas bringing together non-profit and for-profit organizations.

5. What do you wish to accomplish during this appointed term as an Oak Harbor City Council Member?

I do not necessarily have a specific goal. I want Oak Harbor to remain the City I fell in love with and help bring it into the future.

6. What is your vision for our City and community?

A Safe, Clean, and Efficient city with a happy, engaged citizenry.

7. Do you participate in or are involved in any contract(s) with the City of Oak Harbor? Please explain your involvement.

Not Applicable
8. Do you hold any other elected public office? If yes, please describe the offices held.

Not Applicable

9. Is there anything else that you may wish to add that would help us get to know you a little better?

I have a passion for the process. Let us work together to achieve the best we can. I look forward to having the honor to serve. Being self-employed I have the ability to meet the time demands of the position.

Supplemental Questions

Please respond to the following questions regarding your interest in the position of Council Member for the City of Oak Harbor on the following spaces provided:
1. **Why are you interested in serving as an Oak Harbor City Council Member?**

   I am interested in helping shape the future of our community, ensuring our citizen’s concerns and desires continue to be heard and that the close working relationship with the Navy is strengthened. We have a wonderful “gem” of a community and we need solid leadership to make informed decisions to help make Oak Harbor a destination community and I desire to be a part of that team as member of the Oak Harbor City Council.

2. **What strength would you bring to the Council?**

   I have a broad range of experience, talents and capabilities that I bring to the table. I make informed decisions and am a proven problem solver. I am personable, a good listener, and easy to approach regardless of the subject matter at hand and will research the issues to ascertain the best path to follow. I also strive to be the best at whatever I undertake and will endeavor to provide sound, informed and honest/ethical leadership.

3. **What are the three highest priorities and/or issues you believe the City needs to address? How would you propose to address these issues?**

   1. Currently the most pressing issue is the new wastewater treatment facility that is being built. For this many decisions have been made however, we need to continue to strive to keep costs down and find additional ways of easing the financial burden on our citizens. For this issue we have a very competent staff in each of the Engineering, Finance, and Administrative departments. We need to continue to ask that they look into all avenues for being reducing costs, finding sources of funding and ensuring the project stays at or below projected construction costs.

   2. Next we need to ensure our infrastructure is well maintained. This includes but is not limited to our streets, sidewalks, parks, buildings and the many other assets that our City owns and cares for. We cannot expect to be a destination community if our infrastructure is allowed to not be properly cared for.

   3. Finally, ensuring our Police and Fire Departments continue to have our support and that the leadership is provided with the necessary tools and funding in order to meet their ever growing demands.

4. **Explain your current and past community involvement and/or service on City, non-profit, or public boards, committees, task forces, or commissions and how this has contributed to the Oak Harbor community.** Address its relevance to the position of Oak Harbor City Council Member.

   For the past 14 years have been involved with the North Whidbey Community Harvest (Free Thanksgiving dinner at Elks), President of the organization for past two years. This
event has built a true sense of community. Current member of the Oak Harbor Arts Commission, Chair for the past two years. The commission helps to bring art to the City of Oak Harbor by making recommendations to the City Council for use of the funds provided. Though not a sitting member have attended most of the Parks Board meetings and contributed at many of them. This involvement helps keep me informed of what is happening within our Parks and much of the City. Have been member of the Pig-Fest organizing board since it was started. Involvement in this event keeps me involved in the community and work to keep various portions of our community active through donations of time, materials or money to help support it. Member of the Oak Harbor Area Council, Navy League, and on their executive Board of Directors and Editor of their newsletter. The Navy League is actively involved in supporting the U.S. Navy and all sea services. The Navy League works to ensure the Navy and civilian communities have a good relationship. Have been involved in many of the activities sponsored by the Navy League such as participation in parades, squadron home-comings, the Military Appreciation picnic, Veterans Day program and the many other events and activities of this organization. Have been actively involved in helping with Driftwood Day, a free event sponsored by the Oak Harbor Arts Commission. Participation in the event was before I was on the Arts Commission and since it’s inception. Member of the organizing committee for the St Patrick’s Day parade and activities.

5. What do you wish to accomplish during this appointed term as an Oak Harbor City Council Member?

I do not have any agendas for running other than helping to make Oak Harbor the best community in which to raise a family, to increase tourism, and transform Oak Harbor into a destination community. We have a great staff to work with and the citizens of Oak Harbor do care about our community. As such, I would hope to be able to address the various issues that are presented and make the best possible, informed decision on each.

6. What is your vision for our City and community?

Oak Harbor is a beautiful City with an exceptional waterfront. We need to find ways to incorporate the waterfront and it make a more active and vibrant environment. We also need to attract more and varied businesses to come to Oak Harbor to help give visitors a reason to come and stay with us. Some plans have been discussed with regard to reestablishing or renovating “Windjammer Park” once the wastewater treatment facility is complete. I am very interested in being involved, as a member of the City Counsel, and look forward to helping to revitalize our waterfront park and City. We have many of the pieces in place to make Oak Harbor a destination City, we just need to tie them all together and “dress them up” to make our dream a reality.

7. Do you participate in or are involved in any contract(s) with the City of Oak Harbor? Please explain your involvement.
No

8. Do you hold any other elected public office? If yes, please describe the offices held.

No

9. Is there anything else that you may wish to add that would help us get to know you a little better?

When selected I will research the issues and work collaboratively with city staff, citizens, the other members of the City Council and the Mayor to find common sense solutions to new and existing challenges. As a City official my allegiance is to the citizens of Oak Harbor and it is my duty and commitment to study the issues and make solid, rational decisions that are in the best interest of Oak Harbor, our community and the citizens we serve.

My vision for the City of Oak Harbor would include an economic development package that would make us more business friendly. Encourage bringing businesses to Oak Harbor that can provide products that people now travel off island to acquire. We have businesses that do not carry essentials such as clothing, shoes and etc. If we can develop this aspect, people will shop Oak Harbor. I would love to see us have the capability to at least overlay some streets, which I don’t think has been done for years. With the influx of the P-8 program growth will become an issue to be worked on. This will include services and etc to support an increased population. Live here spend here.
