

City of Oak Harbor
City Council
Workshop Agenda Bill

Date: August 22, 2018

Subject: **Bio-Solids Beneficial Use
Services Agreement at the
Boulder Park Project**

FROM: Cathy Rosen, Director Public Works

SUMMARY STATEMENT

It is anticipated that during startup and maintenance activities at the Clean Water Facility the biosolids produced from the facility will be considered Class B (not Class A) Biosolids for distribution. Until the City demonstrates through testing that the biosolids being produced will consistently meet Class A Biosolids standards, the City will need to contract with Boulder Park Inc. and King County to haul the biosolids material to their facility in Mansfield Washington for beneficial use.
