RECOMMENDED ACTION
Adopt Resolution #15-24 authorizing the Mayor to sign a temporary lease agreement in the amount of $132,000/year between the general and sewer fund for use of the Staysail RV Park and Windjammer Park during the wastewater treatment plant construction.

BACKGROUND / SUMMARY INFORMATION
On January 6, 2015, City Council adopted Resolution #14-43 determining the laydown area for construction of the new wastewater treatment plant. The laydown area included portions of the Staysail RV Park and Windjammer Park which are general fund assets. Since the new wastewater treatment plant is a sewer fund asset and the park facilities are general fund, state accounting principles require a transfer of revenue between the funds.

During construction most of the impacts will be temporary and a lease agreement prepared to formally account for the inter-fund activity. The attached Resolution #15-24 provides for an annual lease amount of $132,000 to account for impacts to the park, including loss of general fund revenue from Staysail Park. This resolution is timed with the start of construction at the treatment plant site.

This resolution provides for temporary use of the park facilities. Any permanent inter-fund transfers will be presented to council at a later date.

FISCAL IMPACT
Funds Required: $132,000/year (see lease agreement)
Appropriation Source: Wastewater Fund
